

Shabbos Checklist

It's great to have a Shabbos checklist to refer to every week so nothing gets left undone. As your list may differ from ours we've left it blank for you. You can fill in this interactive pdf on your computer or by hand, and print them out or make copies as needed. Some examples may be: check lights, open diapers, tear toilet paper/paper towels, turn phone ringer off, etc. You can also divide the list into categories such as guests, menus, activities for children, or learning.
